

DSP DA Onboarding

Information Covered

1. Understand changes in DA onboarding workflow
2. Reason for Change
3. List of onboarding tasks overview
4. Step-by-step process to onboard DAs in Flex Pro App (Rabbit) in new onboarding workflow
5. How can DSPs track the onboarding step of DAs in Amazon Logistics Portal
6. How can DSPs offboard or inactivate DAs in Amazon Logistics Portal

Changes in DA onboarding workflow

Earlier workflow

1. All steps of DA onboarding used to happen in Amazon Logistics Portal (www.logistics.amazon.in) in the browser.
2. DA did not mandatorily complete BackGround Check (BGC) and training prior to onboarding completion.

New Workflow

1. Most steps of DA onboarding will happen in Flex Pro App (Rabbit) in the mobile application.
2. DA need to mandatorily **upload clear front and back side image of permanent driving license** during onboarding.
3. DA need to enter BGC details, which will be systematically passed to IDFY (BGC Vendor) for conducting BGC verification. DA will **complete onboarding only once BGC verified**.
4. DA will **complete onboarding only post training completion** in LM Learning Platform

Reasons for change in DA onboarding workflow

1. Improve DA onboarding experience by moving to mobile application based workflow.
2. Achieving compliance by ensuring only GREEN BGC (in criminal check, driving license check, PAN check, and address check) candidates complete onboarding – inline with Program Policy and Program Agreement.
3. Achieving training compliance and safety by ensuring associates are well trained before first day of out-on-road activity.

Step-by-step process to onboard DAs in Flex
Pro App (Rabbit) in new onboarding workflow

The steps to perform DA onboarding are divided into 13 tasks and 4 sections. These sections are color-coded for your convenience as given below:

- **Controllable: DSP**
- **Controllable: DA**
- **Controllable: Amazon**
- **Controllable: BGC Vendor**

List of onboarding tasks overview

1. Send invitation to DA (Controllable: DSP)
2. Edit Associate Setting (Controllable: DSP)
3. Accept Invitation (Controllable: DA)
4. Download Flex Pro App and Create Account (Controllable: DA)
5. Accept Privacy Agreement (Controllable: DA)
6. Enter Basic info details (Controllable: DA)
7. Driver's License Upload (Controllable: DA)
8. Driver's License Verification (Controllable: Amazon)
9. Photo Upload (Controllable: DA)
10. Background Check details (Controllable: DA)
11. Background Check Processing (Controllable: BGC Vendor)
12. Account Setup (Controllable: Amazon)
13. Training (Controllable: DA)

Controllable: DSP

Task 1: Send Invitation to DA

Steps performed by DSP Partner

Log into Amazon Logistics Portal
(www.logistics.amazon.in):

1. Tap on **Setup>>Associates**
2. Tap on **Add a Delivery Associate**
3. Enter First Name, Last Name, Suffix, and Email Address of associate
4. Tap on **Send**.

The image shows two screenshots of the Amazon Logistics Portal interface. The top screenshot shows the 'Setup' menu with 'Associates' highlighted. The bottom screenshot shows the 'Add a new delivery associate' form with fields for First Name, Last Name, Suffix, and Email, and a 'Send' button.

Step 1: Tap on **Setup>>Associates**

The top screenshot shows the Amazon Logistics Portal dashboard. The 'Setup' menu is open, and 'Associates' is highlighted. A red circle with the number 1 is around the 'Setup' menu.

Step 2: Tap on **Add a Delivery Associate**

The bottom screenshot shows the 'Delivery associates' page. The 'Add a Delivery Associate' button is highlighted with a red dashed circle and a red arrow pointing to it. A red circle with the number 2 is around the button.

Step 3: Enter First Name, Last Name, Suffix, and Email Address of associate

The bottom screenshot shows the 'Add a new delivery associate' form. The form has fields for First Name, Last Name, Suffix, and Email. A red circle with the number 3 is around the form fields.

Step 4: Tap on **Send**

The bottom screenshot shows the 'Send' button at the bottom of the form. A red circle with the number 4 is around the button.

Notes:

1. DA will receive the onboarding invitation link in the email address provided by DSP in this step. DA needs to use this email address for login into Flex Pro App (Rabbit) for providing service.
2. The email address should be unique and not be previously associated with Amazon in any way, including:
 - a) Amazon.com Retail Shopping Account
 - b) Amazon Prime or other Amazon Account
 - c) Amazon Job Application
 - d) Used as DA with another DSP

Controllable: DSP

Task 2: Send Invitation to DA

Steps performed by DSP Partner

1. Click on DA Name link
2. Click on Edit next to 'Associate Settings'
3. Enter the Service Area, Service Type, and Supervisor login alias without @amazon.com
4. Click "Confirm"

amazon Home Scheduling Operations Performance Payments Setup

3 [Confirm](#) [Cancel](#)

Notes:

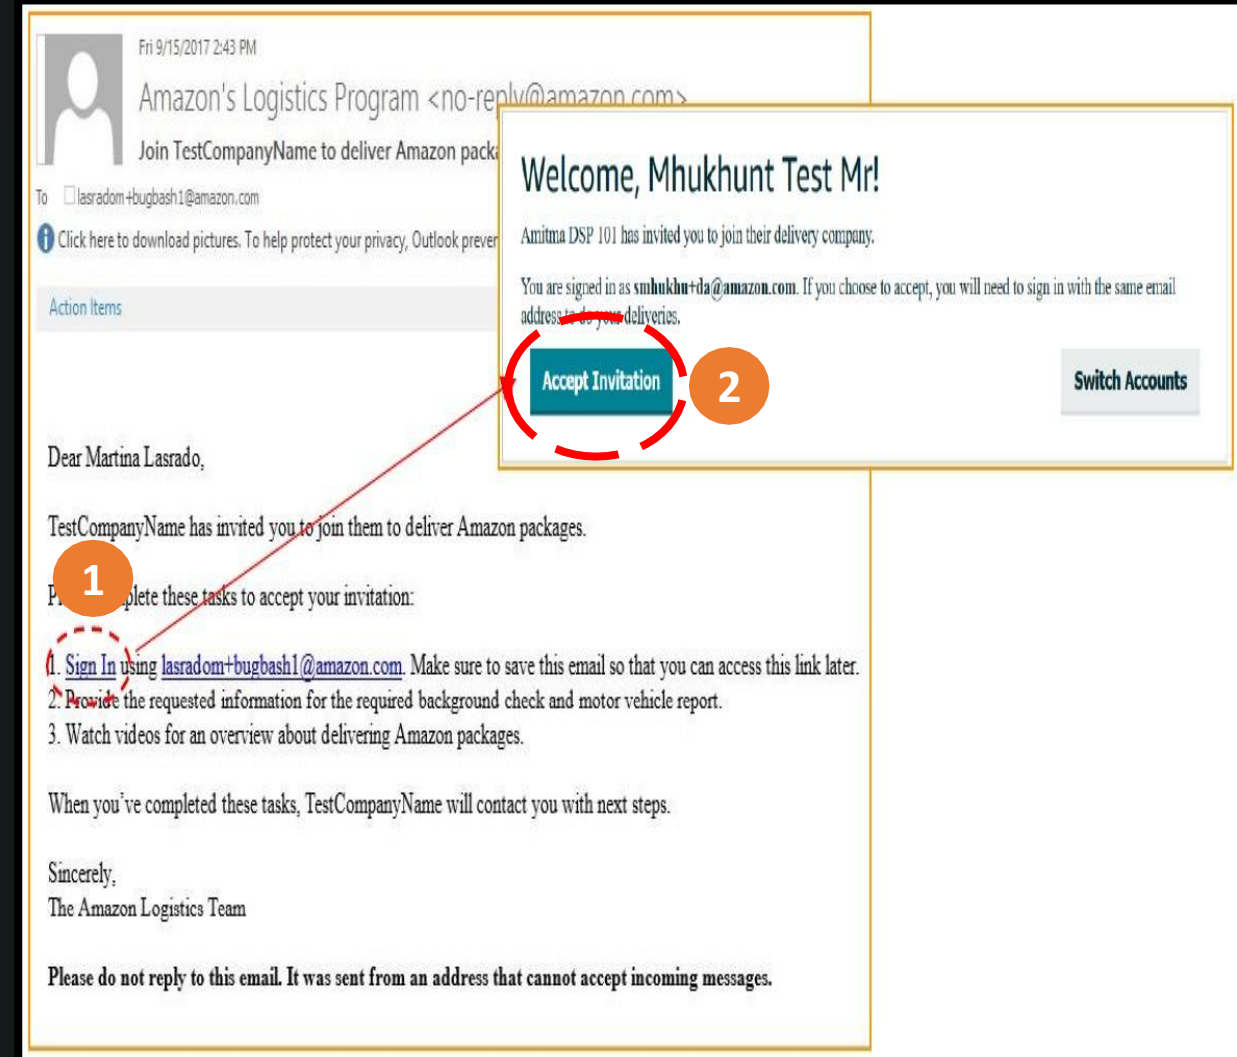

1. The background check process will not start until the DSP completes this step.
2. For Service Area, enter the station code in which DA will provide service.
3. For Service Type, select Amazon Logistics.
4. For Supervisor login alias, enter your Channel Relationship Manager Amazon alias (without @amazon.com)

Controllable: DA

Task 3: Accept Invitation

Steps performed by DA

1. DA will receive the onboarding invitation link in the email address provided by DSP in previous step.
2. Click "Sign In" link in email
3. Click "Accept Invitation"

Notes:

1. It is advisable for DA to perform this step in mobile.
2. It is advisable for DA to save the original invitation email so that they can access the onboarding link at any time.
3. DA should not click on "Switch Accounts".

Controllable: DA

Task 4: Download Flex Pro App and Create Account

Steps performed by DA (1of1)

1. Click on "Create Account"
2. Enter Name, Email address, and strong password.
3. Click on "Create your Amazon account"
4. After creating an account, DA will be automatically prompted to download the Flex Pro (Rabbit) App to continue onboarding. The "Download app" button will automatically download the latest app version for the device.

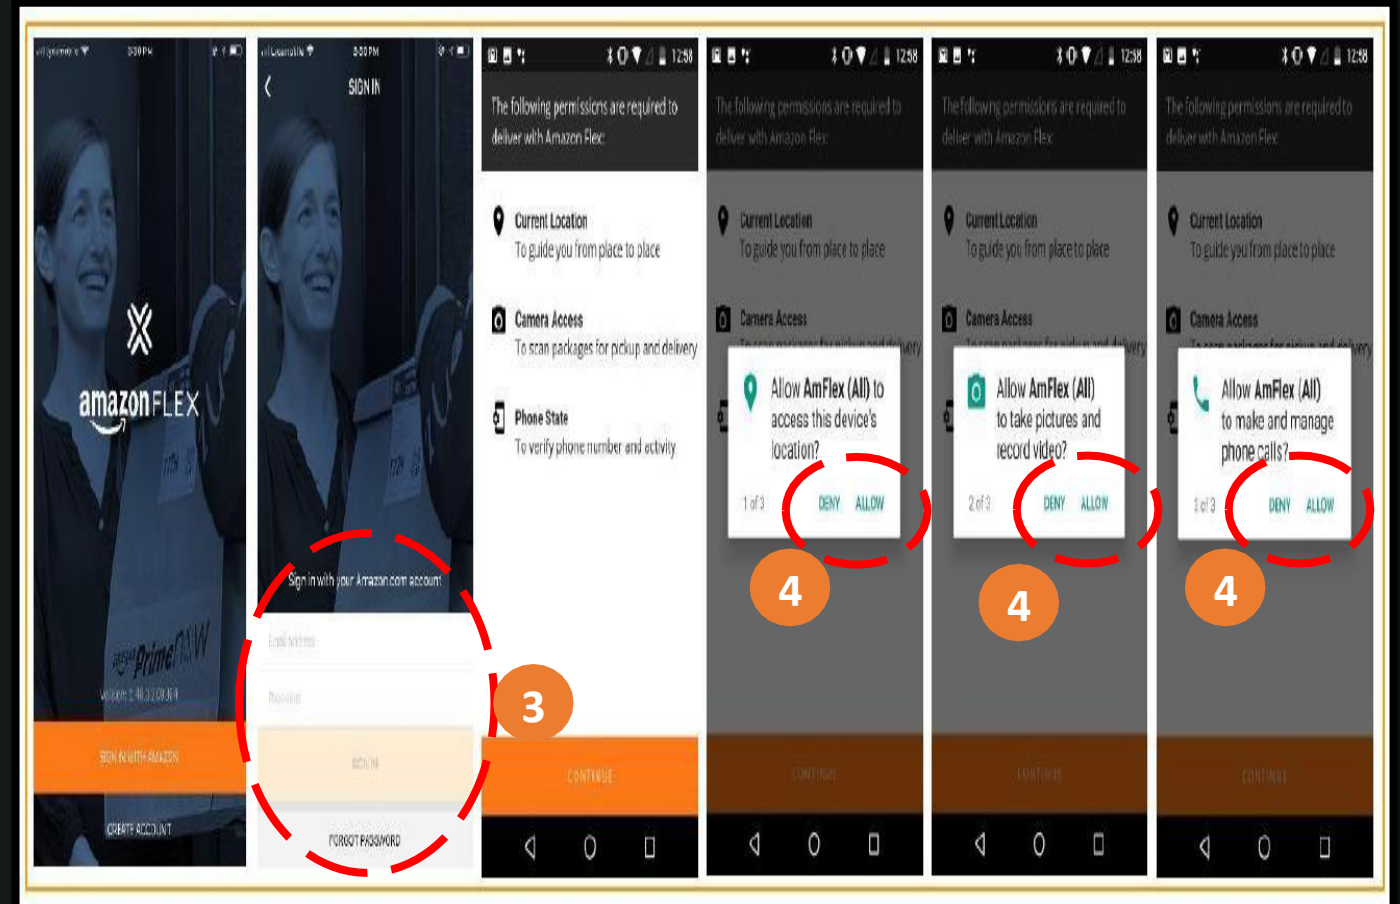

The screenshot shows the Amazon account creation interface. On the left, a 'Welcome, John Smith!' message from TestCompany includes a 'Create account' button, which is circled in red and labeled with a red circle containing the number '1'. A red dashed oval highlights the email address 'sriva+dsptest2@amazon.com' in the invitation text. An arrow points from this email to the 'Email' input field on the right. The right side of the image shows the 'Create account' form with fields for 'Your name', 'Email' (pre-filled with 'sriva+dsptest2@amazon.com'), 'Password' (with a hint 'At least 6 characters'), and 'Re-enter password'. The 'Create your Amazon account' button at the bottom is circled in red and labeled with a red circle containing the number '2'. A red dashed oval also highlights the 'By creating an account, you agree to Amazon's Conditions of Use and Privacy Notice' text below the button.

Controllable: DA

Task 4: Download Flex Pro App and Create Account

Steps performed by DA (1of2)

1. In App, DA enter email address and password set in previous step, and click on "SIGN IN"
2. Click "Allow"

Notes:

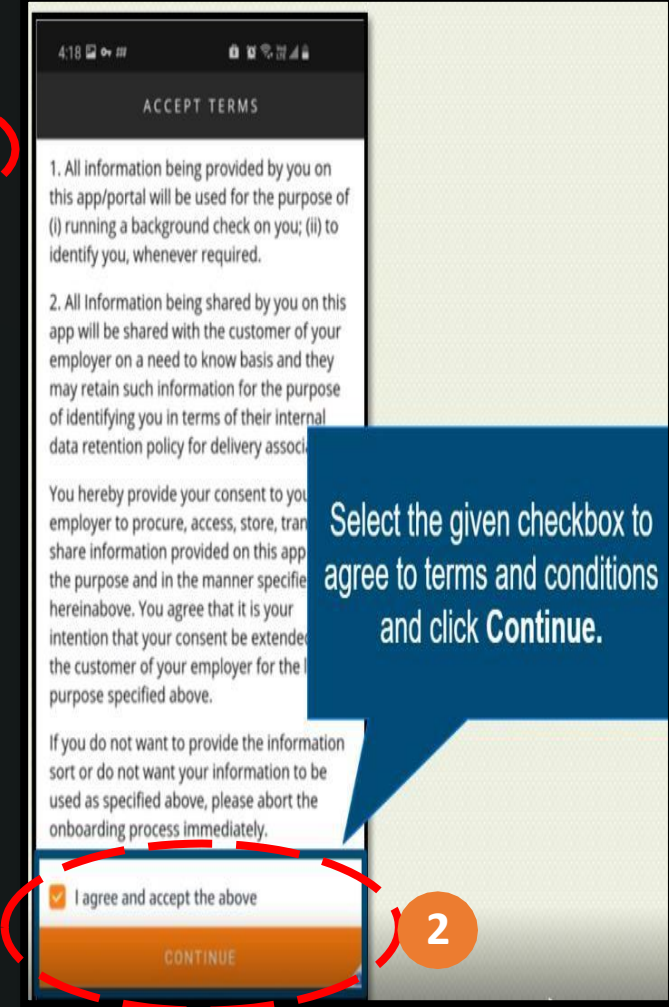

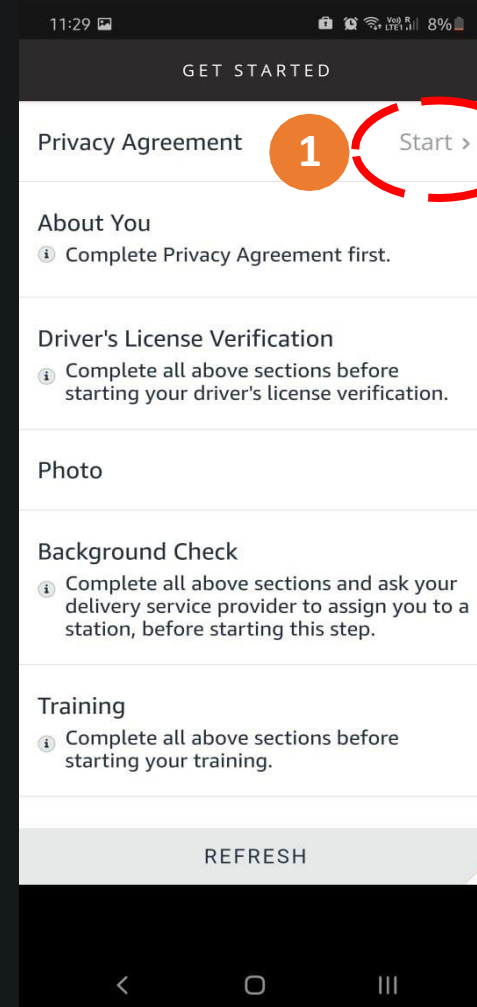

1. DA should perform this step in Android mobile, as Flex Pro (Rabbit) App is not supported in desktop and Apple mobiles.
2. DA should enter use the same email address (in which the invitation was sent) to create Amazon account and login into Flex Pro App.
3. DA should always create strong password, and never share their credentials with anyone.

Controllable: DA

Task 5: Accept Privacy Agreement

Steps performed by DA

1. Once the DA is logged in Flex Pro App, DA will be able to see a task overview page showing list of modules that need to be completed, and the status of each tasks. DA need to sequentially complete all steps to complete onboarding.
2. Click "Start" button in Privacy Agreement module.
3. Click checkbox next to "I agree to and accept the above" and "Continue"

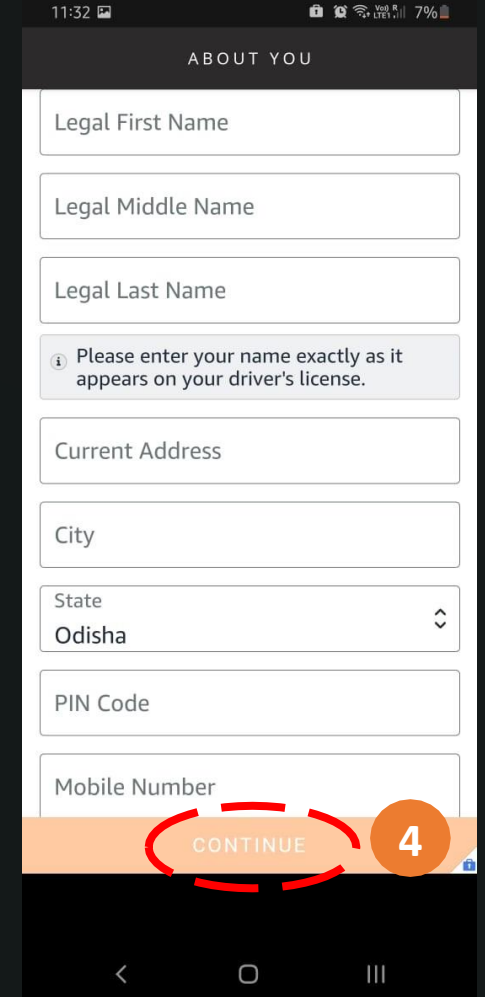

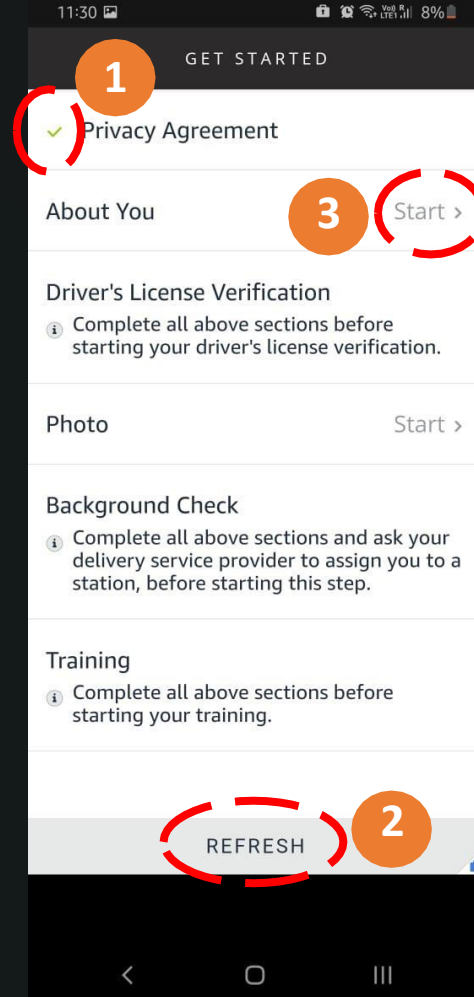

Controllable: DA

Task 6: Enter Basic info details

Steps performed by DA

1. Once Privacy Agreement module is completed, Green tick will appear and DA can move to next step. DA can also click on "Refresh" to check status.
2. Click "Start" button in About You module.
3. Enter Full Name of DA (exactly as it appears on driver's license), current residential address, and correct mobile phone number.
4. Click "Continue"

Notes:

1. DA should enter Name exactly as it appears in driver's license in order to pass the driving license check.
2. DA should enter Current Residential Address as detailed as possible (example: Floor number, building number, street number, area, closest landmark, city name, state, and Pin Code) to facilitate BGC vendor to locate/ complete BGC verification faster.
3. DA should enter the correct mobile number in order to facilitate BGC vendor to contact DA for BCG verification.

Controllable: DA

Task 7: Driver's License Upload

Steps performed by DA (1 of 1)

1. Once About You module is completed, Green tick will appear and DA can move to next step. DA can also click on "Refresh" to check status.
2. Click "Start" button in Driver's License Verification module.
3. Upload clear FRONT image of permanent driving license.
4. Upload clear BACK image of permanent driving license.

The image displays four sequential screenshots of the Amazon Flex app interface, illustrating the steps for uploading a driver's license. Each screenshot is annotated with a red circle and a number indicating the step.

- Screenshot 1 (GET STARTED):** Shows the 'About You' section with a green checkmark. A red circle '1' highlights the 'Start' button next to the 'Driver's License Verification' section.
- Screenshot 2 (DRIVER'S LICENSE):** Shows the 'Driver's License Verification' section. A red circle '2' highlights the 'REFRESH' button at the bottom.
- Screenshot 3 (DRIVER'S LICENSE):** Shows the 'Driver's License Verification' section. A red circle '3' highlights the 'Start' button next to the 'Driver's License Verification' section.
- Screenshot 4 (DRIVER'S LICENSE):** Shows the 'Driver's License Verification' section. A red circle '4' highlights the 'Submit' button at the bottom.

The app interface includes sections for 'Privacy Agreement', 'About You', 'Driver's License Verification', 'Photo', 'Background Check', and 'Training'. The 'Driver's License Verification' section contains instructions and tips for uploading the license. The 'Photo' section includes a 'Start' button. The 'Background Check' section includes a 'Start' button. The 'Training' section includes a 'Start' button. The bottom navigation bar shows a progress indicator with four steps, where the first step is completed and the others are in progress.

Controllable: DA

Task 7.1: Driver's License Upload

Steps performed by DA (1 of 2)

5. Enter date of birth, **driving** license number, state of issue, and expiration date exactly as it appears in driving license.

6. Cross-verify details and Click "Submit"

The image displays four sequential screenshots of the Amazon Flex app's 'Driver's License' upload process, with red circles and numbers 1 through 4 indicating the steps performed by the DA.

- Screenshot 1 (GET STARTED):** Shows the 'About You' section with a red circle 1 around the 'Start' button. Below it is the 'Photo' section with a 'Start >' button. Further down is the 'Background Check' section with a 'Start' button. At the bottom is the 'Training' section with a 'Start' button. A red circle 2 is around the 'REFRESH' button at the bottom.
- Screenshot 2 (DRIVER'S LICENSE):** Shows the 'Take a photo of the FRONT of your official driver's license' screen. A red circle 3 is around the 'Start' button. Below it is a 'Tips' section with two bullet points: 'Centre your license in the frame' and 'Make sure the image is clear and in focus'. A red circle 4 is around the 'CONTINUE' button at the bottom.
- Screenshot 3 (DRIVER'S LICENSE):** Shows the 'Take a photo of the BACK of your official driver's license' screen. A red circle 4 is around the 'CONTINUE' button at the bottom.
- Screenshot 4 (DRIVER'S LICENSE):** Shows the 'Please enter the following information exactly as it appears in your driver's license' screen. The form fields are: 'Date of birth' (27/08/1992), 'Driver's License number' (JH-05/2015/0105162), 'State' (Jharkhand), and 'Expiration date' (02/09/2035). A red circle 4 is around the 'Submit' button at the bottom.

Notes:

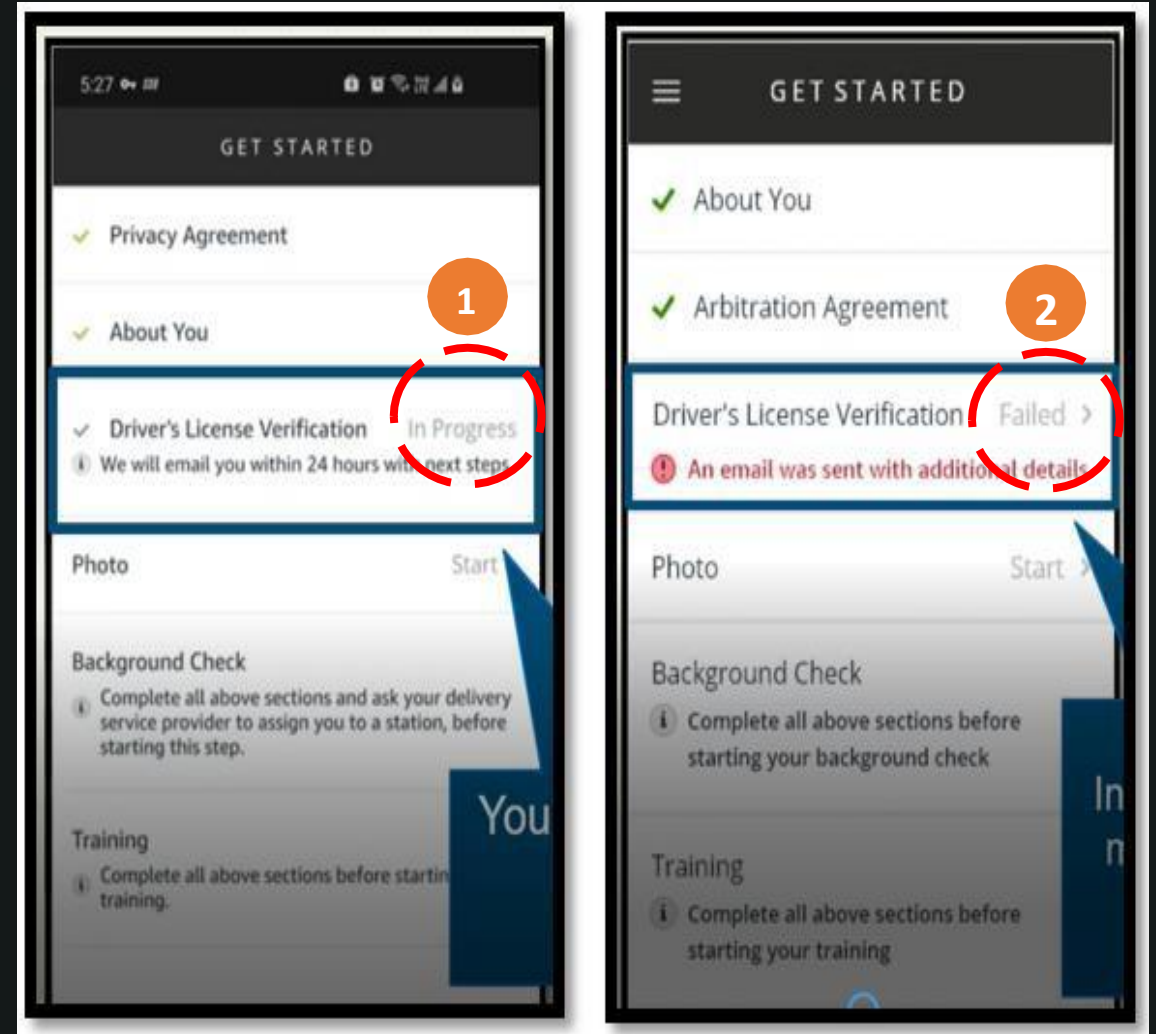

1. DA should upload BOTH the front side and back side of driving license image or else DA will fail verification step. Also, image should be clear enough to verify DA image and driving license details.
2. DA should enter driver's license information (such as Date of Birth, driving license number, State, and expiration date) exactly as it is written in driving license. If the driving license number contains spaces, hyphens (-), leading zeroes, slash (/), etc. the DA should enter it as it is.

Controllable: Amazon

Task 8: Driver's License Verification

Steps performed by Amazon (1of1)

1. On completion of previous step, Driver's License Verification module immediately moves into "In Progress" status. DA can also click on "Refresh" to check status.
2. Driver's License Verification module take up to 24 hours to complete, and DA will be notified in App and mail once module is completed.

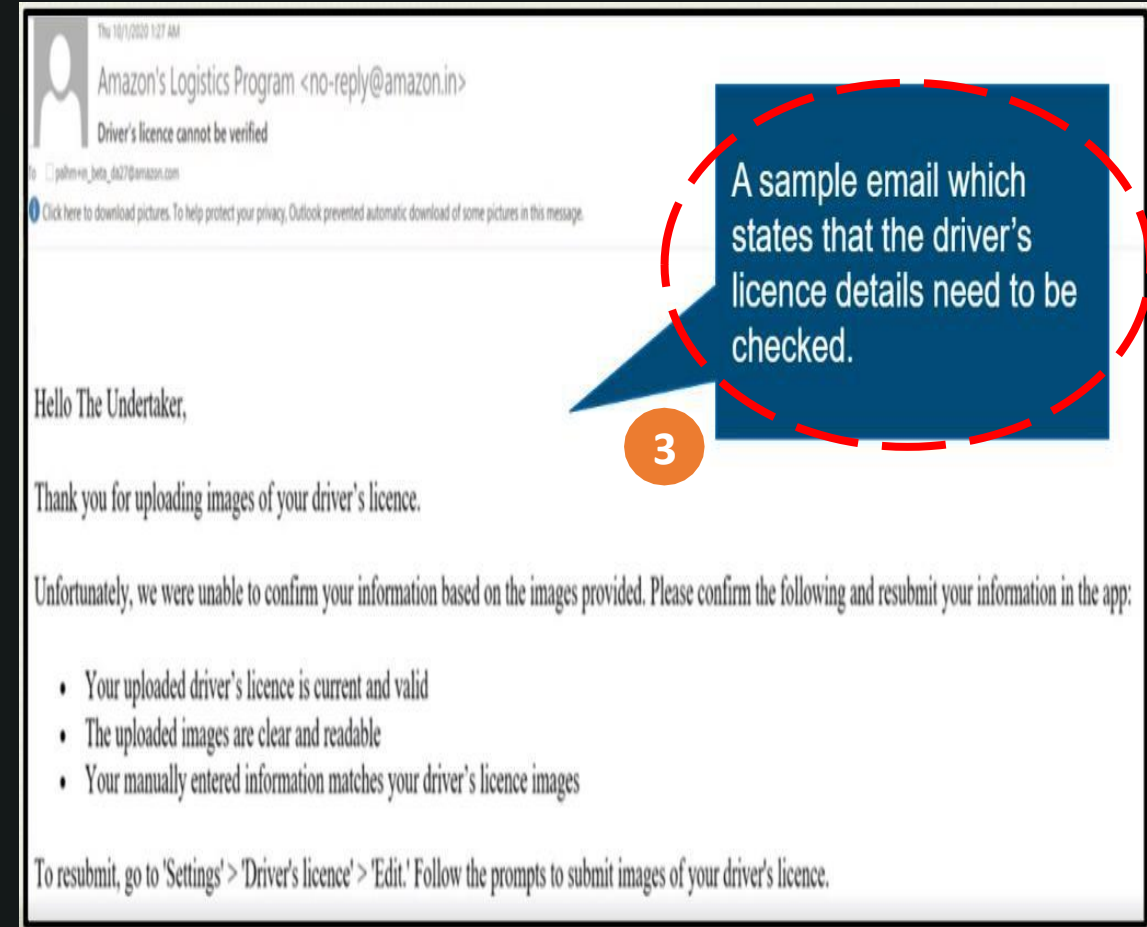

Controllable: Amazon

Task 8: Driver's License Verification

Steps performed by Amazon (1of2)

1. In case Driver's license verification module has failed, DA is notified via App and mail. DA need to re-upload driving license image and enter correct driving license details to initiate re-verification.
2. DA will not be able to start Background Check module until Driver's license verification module is passed.

Notes:

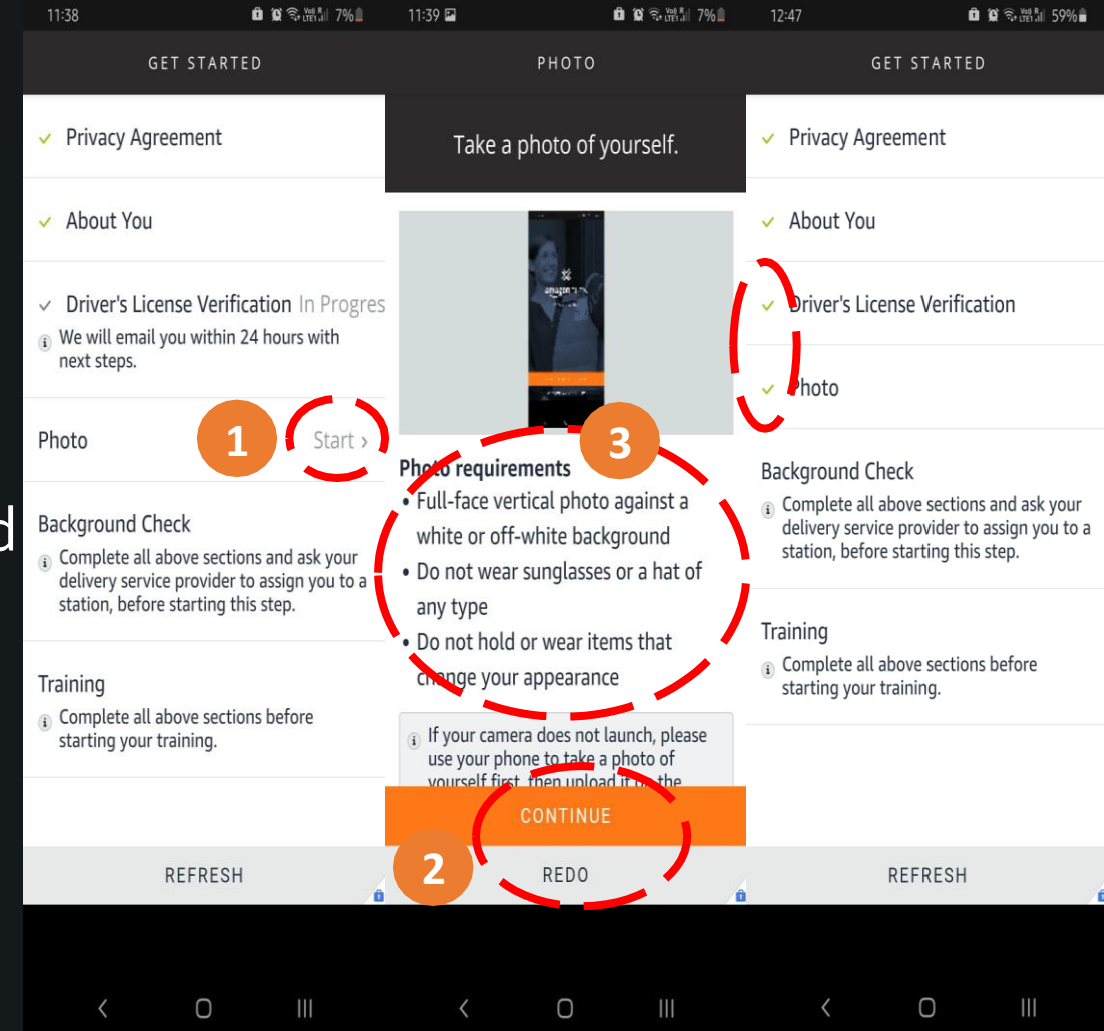

1. This step is not performed by BGC Vendor, but by Amazon to validate the correctness of details entered by DA
2. The common reason of failure are:
3. DA has not entered driving license number, DOB, expiration date, or name exactly as it is written on driving license.
4. DA has not uploaded Both front and back of the driver license image, and
5. DA has not uploaded clear image of original driver license.

Controllable: DA

Task 9: Photo Upload

Steps performed by DA (1 of 1)

1. Click "Start" button in Photo module.
2. By either taking a 'selfie' or upload photo from the device's camera gallery, click CONTINUE. In case DA wants to re-take photo, click REDO.
3. DA should meet Photo requirements as specified in App.

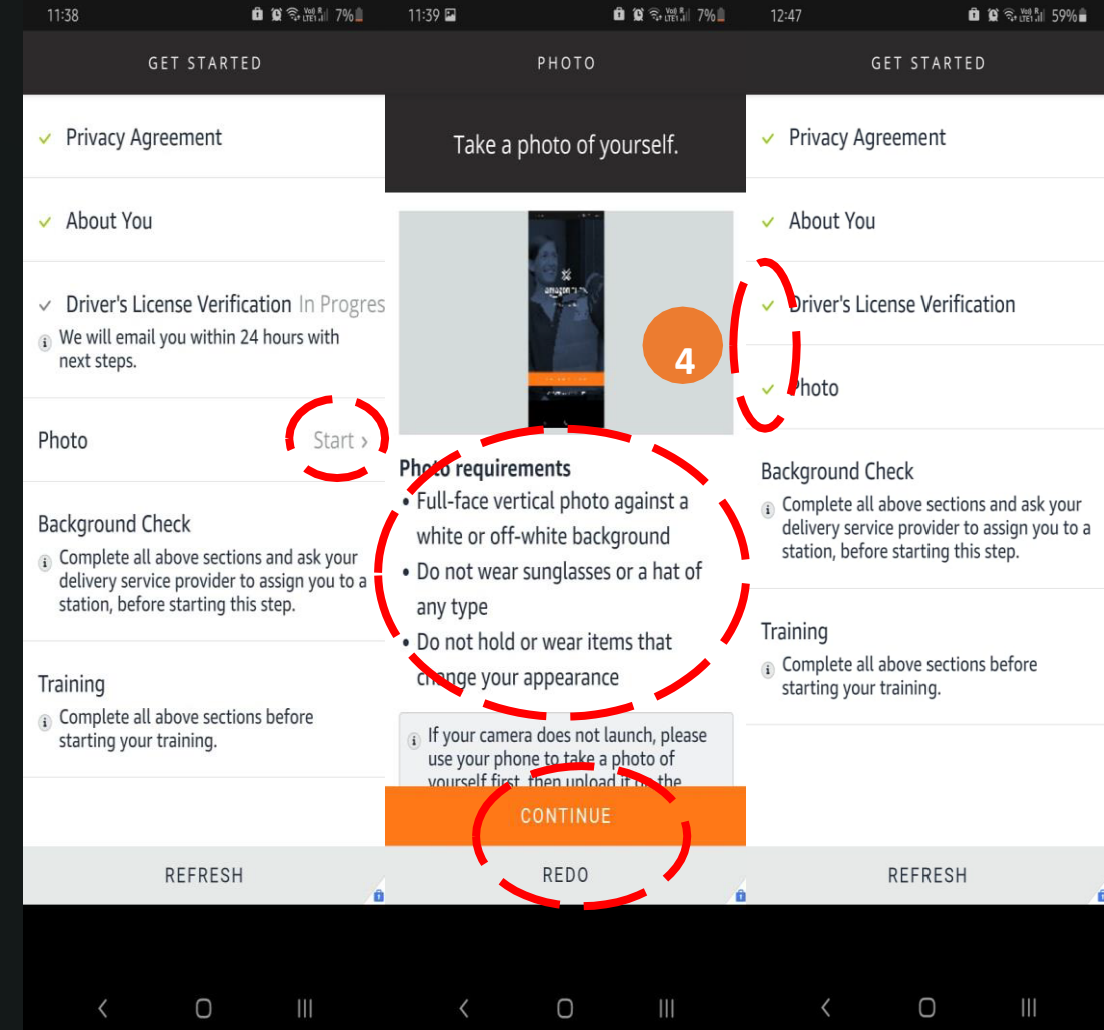

Controllable: DA

Task 9: Photo Upload

Steps performed by DA (1 of 2)

4. DA will not be able to start Background Check module until:

- Green tick appears in Driver's license verification module and Photo module and
- DSP has assigned Service Area to DA as explained in Step 2 - Edit Associate Settings.

Controllable: DA

Task 10: Background Check Detail

Steps performed by DA

1. DA reads Background Check Consent Form and click on "I agree to and accept the above" and CONTINUE.

BACKGROUND CHECK

BACKGROUND CHECK CONSENT FORM FOR DELIVERY ASSOCIATES ("DELIVERY ASSOCIATE")

The driving service provider that I intend to work for ("My DSP") is committed to maintaining a safe and secure environment for all customers and delivery associates and, to that end, My DSP conducts background checks. I also understand that Baldor Technologies Private Limited, a third-party vendor ("IDfy"), has been engaged to conduct background screening on My DSP's behalf.

These background checks may include but are not limited to the following components as applicable for the delivery service for which I am being considered. I agree freely and in a voluntary manner to participate in and assist with the completion of these

agents and subcontractors and any person or entity, which provides information pursuant to this authorization, from and against any and all liabilities, claims, or legal actions, including those under applicable privacy laws in regards to the information obtained from any and all of the above referenced sources used relating to my background verification.

I declare, that any information that I have provided to My DSP directly, to IDfy and/or through a third party is true, complete and correct and that in case falsification or misrepresentation and/or omission of any relevant information related to the application may result in the removal from the company's employment process.

☒ I agree to and accept the above

CONTINUE

Notes:

1. DA enters PAN card details (Name, PAN Number, Father's Name – all 3 exactly as written in PAN Card), prior conviction details, and permanent residential address details to initiate background check with BGC Vendor.
2. Background check data will not flow to BGC Vendor unless DA completes all the above steps

The image displays a sequence of five mobile application screens for a background check process, titled "BACKGROUND CHECK".

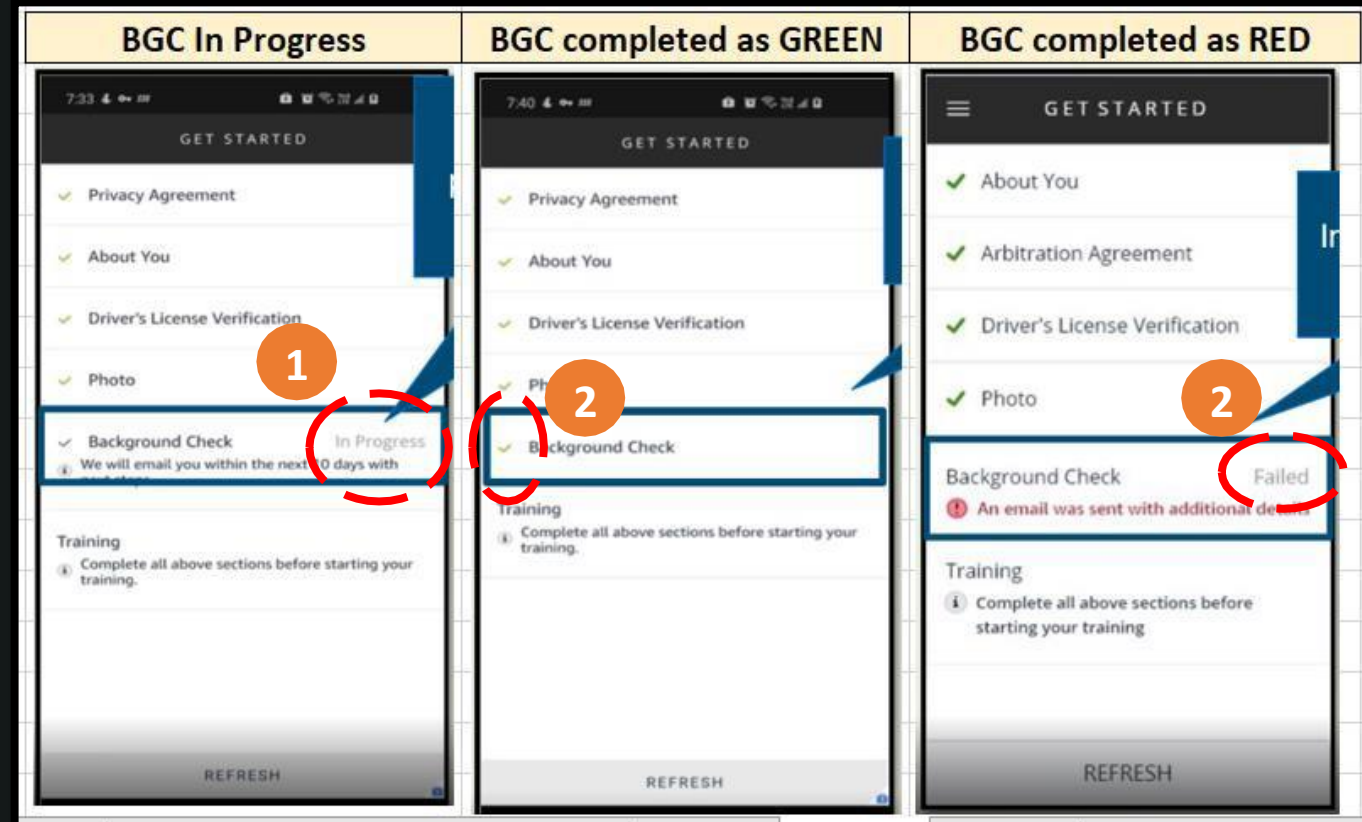

- Screen 1:** "Provide a few details to ensure a fast and accurate background check". Fields include: PAN Card Name, Permanent Account Number (PAN), Father's First Name in PAN, and Father's Last Name in PAN. A question asks: "Have you been convicted of a crime or paroled in the past 7 years?" with options Yes and No. A note states: "If you have been convicted of a misdemeanor or felony or been released from prison or parole from a misdemeanor or felony conviction in the last seven (7) years please select 'Yes'". A "CONTINUE" button is at the bottom.
- Screen 2:** "Provide a few details to ensure a fast and accurate background check". This screen is identical to Screen 1.
- Screen 3:** "Prior conviction ?". Fields include: Offense, Offense date, County, and State. A note states: "If you have been convicted of a misdemeanor or felony or been released from prison or parole from a misdemeanor or felony conviction in the last seven (7) years please select 'Yes' and provide details on the next screen". A "+ Add another conviction" link is present. A "CONTINUE" button is at the bottom.
- Screen 4:** "Provide previous legal names". Fields include: Legal alias, Legal first name, and Legal last name. A "+ Add" link is present. A "CONTINUE" button is at the bottom.
- Screen 5:** "Please provide your permanent address". Fields include: Permanent Address, City, State (dropdown), and Pin Code. A "CONTINUE" button is at the bottom.

Controllable: BGC Vendor

Task 11: Background Check Processing

Steps performed by BGC Vendor (1 of 1)

1. Once BGC details are passed to BGC Vendor, the Background Check module will indicate "In Progress" in App.
2. BCG Vendor will take 5-10 days for completion of background check of DA.
3. The Task Overview screen in App will provide status of Background Check - In Progress, Passed, or Failed. DA should regularly visit the App everyday to check completion status.

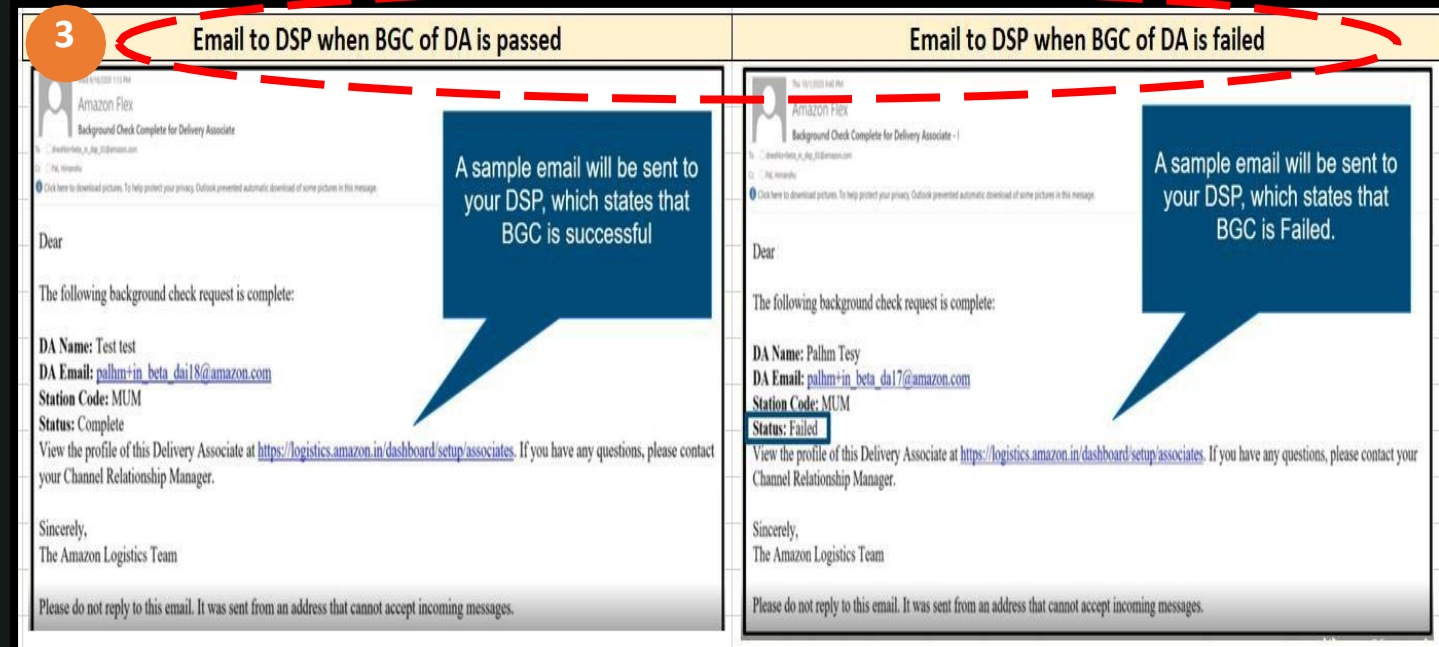

Controllable: BGC Vendor

Task 11: Background Check Processing

Steps performed by BGC Vendor (1 of 2)

4. DSP will also be notified via email once DA passes or fails BGC check.

5. DA will not be able to move to next module until Background Check module is passed.

Notes:

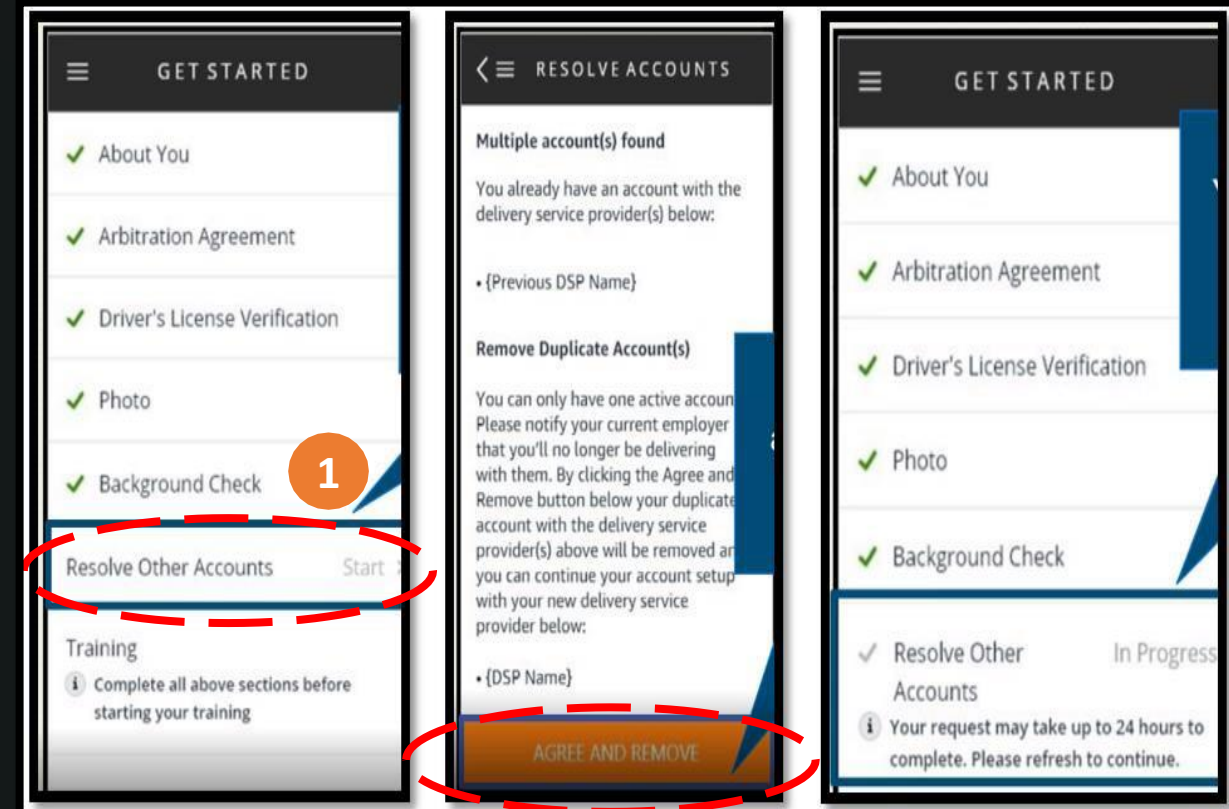

1. DSP needs to ensure that sufficient balance is maintained with BGC vendor, or else BGC check will not even be initiated for DAs
2. In case, BGC Vendor need any additional information for completion of BGC check, the same will be notified as Insufficiency in BGC vendor Portal. DSP need to regularly resolve Insufficiency for faster completion of BGC checks

Controllable: Amazon

Task 12: Account Setup

Steps performed by Amazon

1. Post completion of BGC, DA account will be automatically set up in Amazon system within TAT of 3-6 hours.
2. In case it takes longer, then the most probable reason is that DA have multiple rabbit accounts created in system. In this case, DA will be notified in App to Resolve Other Accounts.

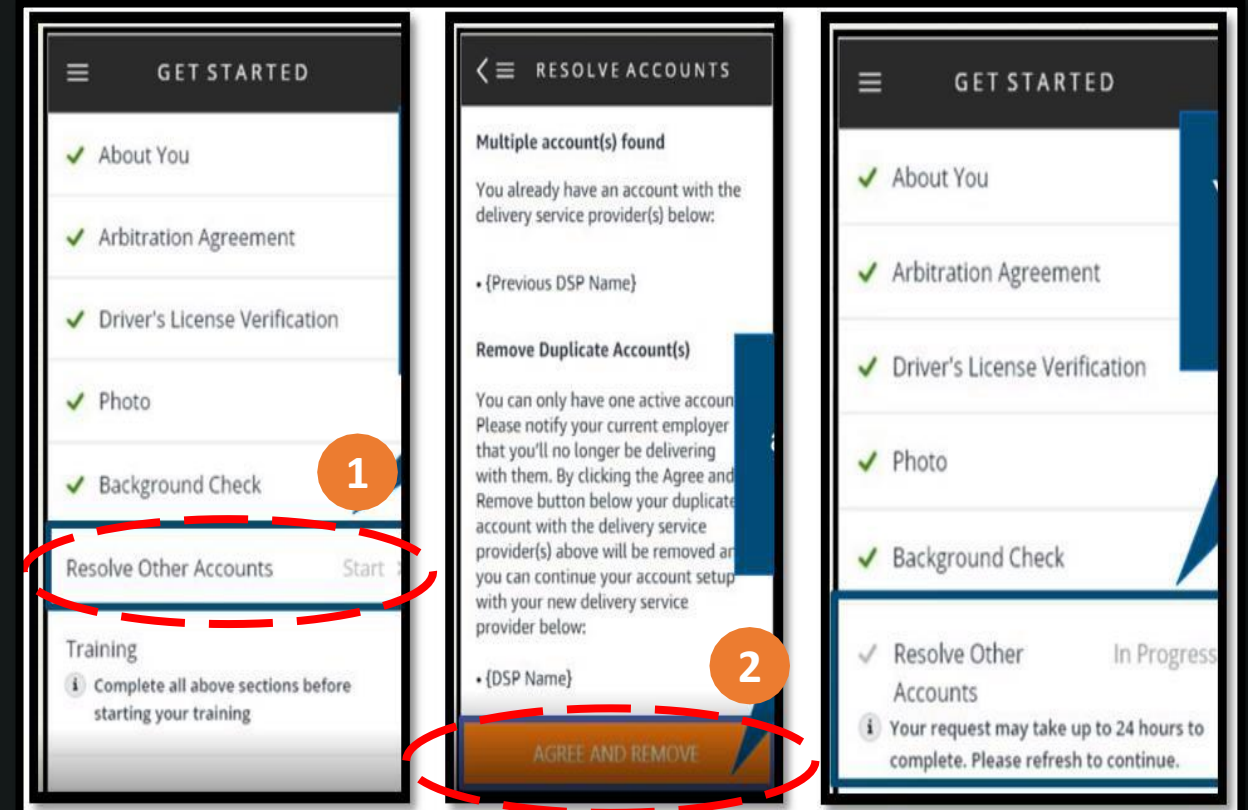

Controllable: DA

Task 12.1: How to Resolve other Accounts

Steps performed by DA

1. Click "Start" in Resolve Other Accounts module.
2. Click "Agree and Remove". By clicking this, the other rabbit accounts of DA will be off boarded.
3. Please note that it might take up to 24 hours to complete resolving other account to move to next module.

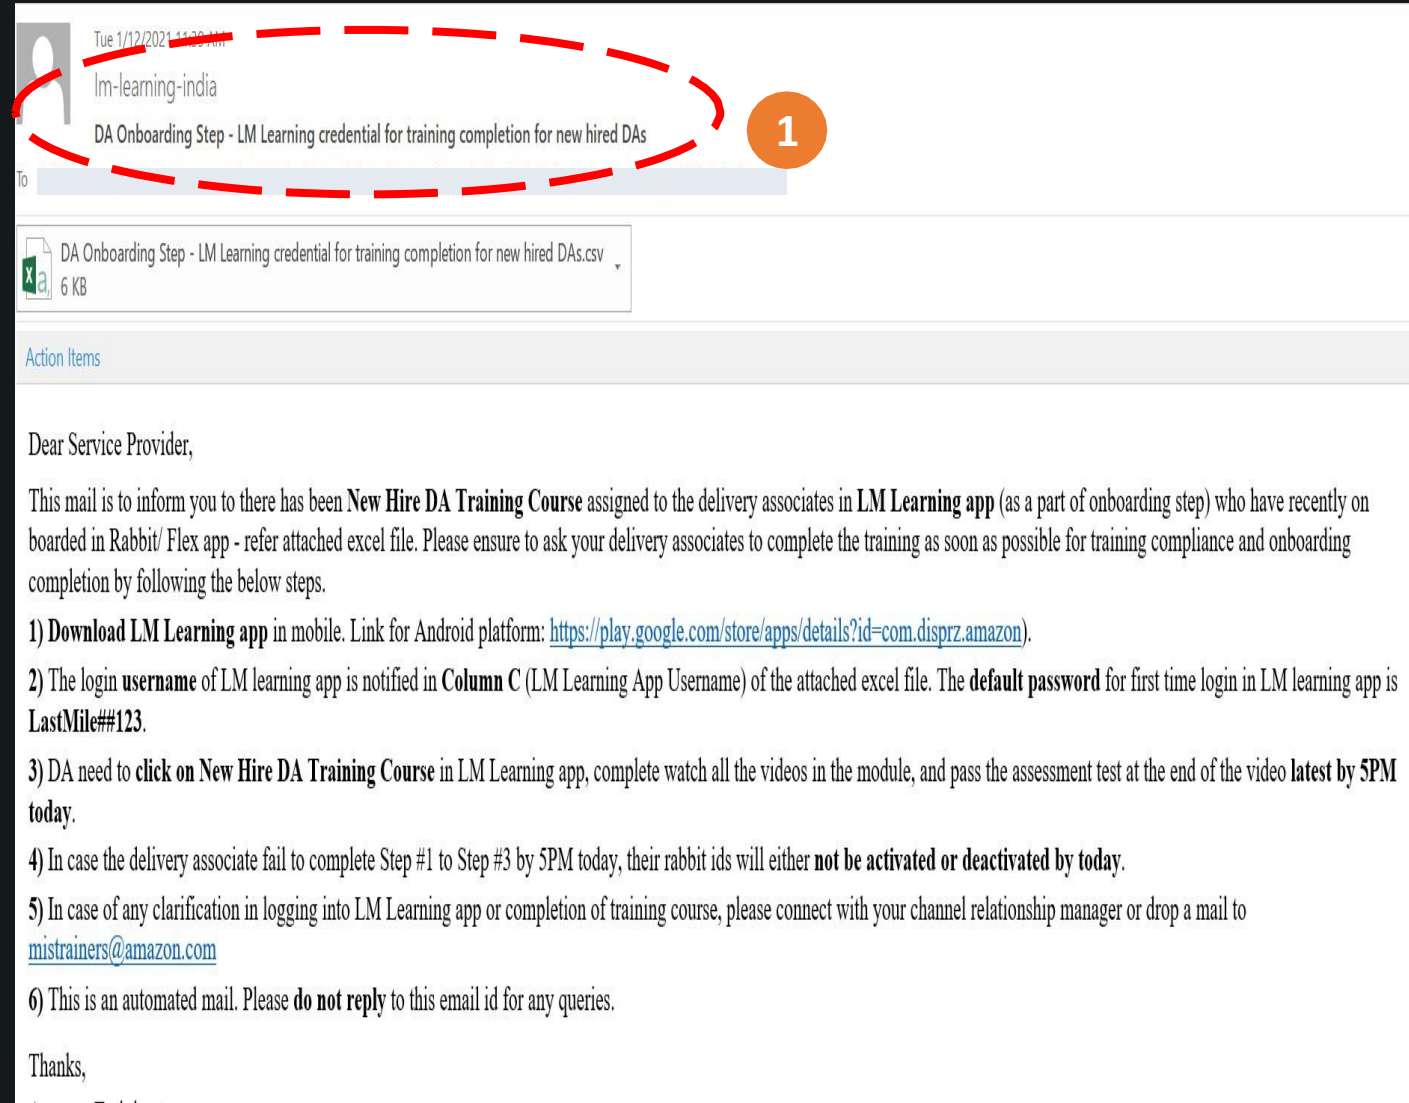

Controllable: Amazon

Task 13: Training

Steps performed by Amazon

1. Within 24 hours of completion of previous modules, New Hiring training course is assigned to DA in LM Learning mobile application.

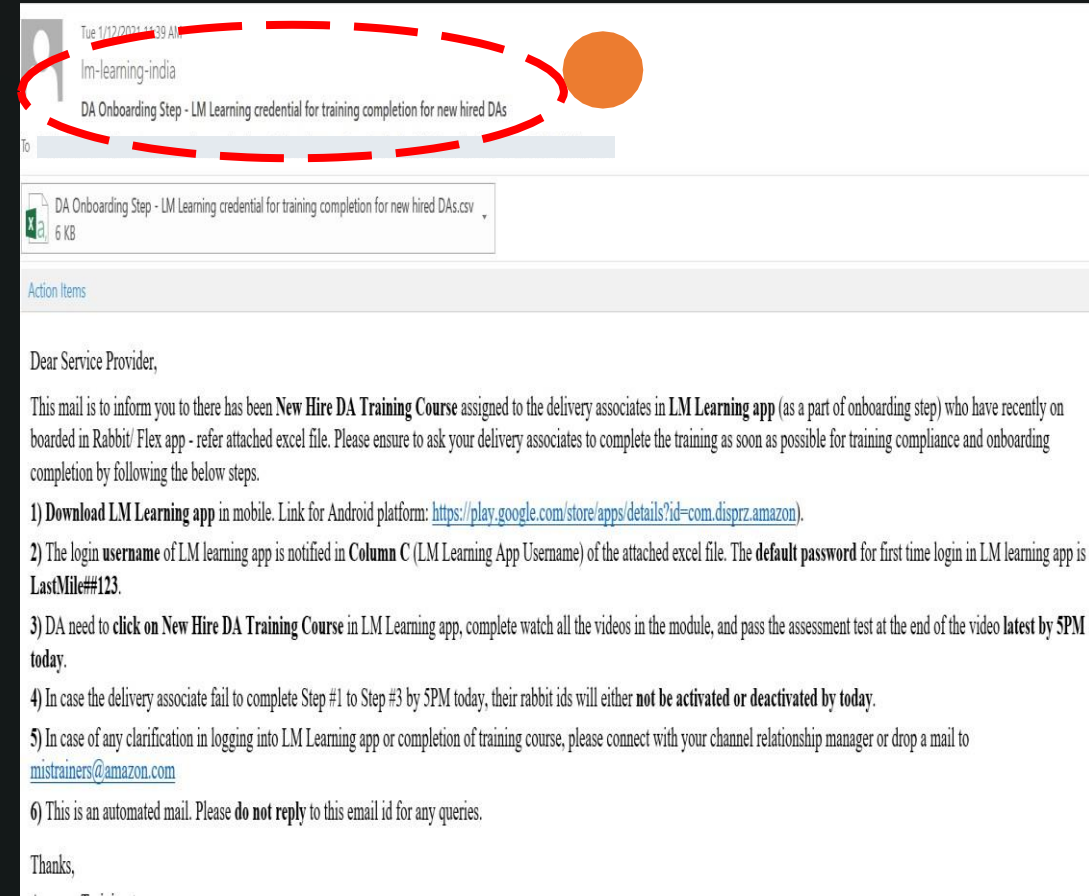

Controllable: DA

Task 13: Training

Steps performed by DA

1. DSP need to ensure that:
 - DA will download LM Learning Application (<https://play.google.com/store/apps/details?id=com.disprz.amazon>),
 - login LM Learning Application using correct credentials, and
 - Complete assigned training course to complete onboarding.
2. The credentials (username and password) of DA to log into LM Learning application is sent

im-learning-
india@amazon.com

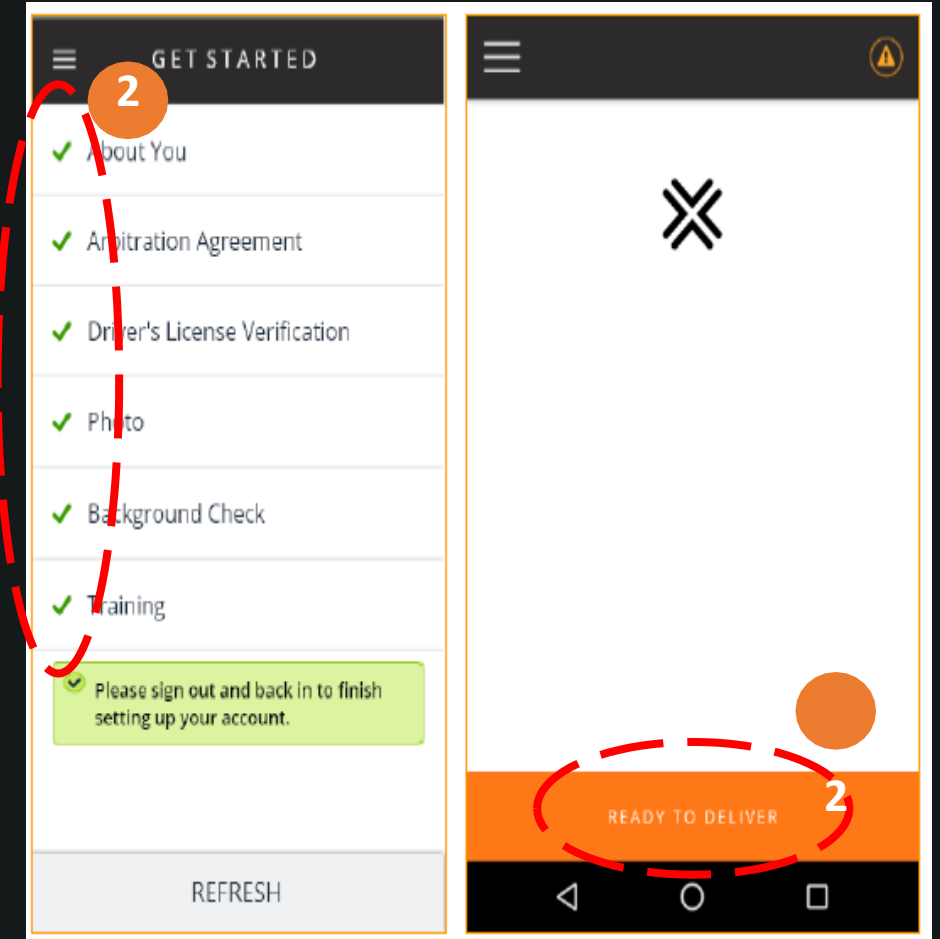

Controllable: DA

Task 13.2: Training

Steps performed by DA

1. Once DA completes New Hiring training course in LM Learning application, Amazon marks Training completion within 24 hours.
2. Once the DA has completed all onboarding tasks, the Task Overview page will show all tasks as complete. The DA will be automatically redirected to the "Ready to Deliver" screen.

If the DA is not automatically redirected to the "Ready to Deliver" screen, the DA will be prompted to sign out and sign back in to finish setting up the account and then the DA will be able to access the "Ready to

How can DSPs track the onboarding step of DAs in Amazon Logistics Portal

There are 3 ways to track onboarding steps of DAs as listed below:

- A.** Bulk tracking of onboarding status via “DA inapp onboarding” report uploaded at daily cadence in Amazon Logistics Portal (DSP Portal).
(this report is uploaded at one day lag, and is most useful to track all DAs onboarding status at station level, understand the onboarding stage in which they are stuck, and next steps to move forward.)
- B.** Bulk tracking of onboarding status via Setup -> Associates section in Amazon Logistics Portal (DSP Portal).
(this report is updated real time, but has limitation in number of DAs that can be searched at one time.)
- C.** Single search of individual DAs via *Setup* -> *Associates* section in Amazon Logistics Portal (DSP Portal).

A. Bulk tracking of onboarding status via “DA inapp onboarding” report uploaded at daily cadence in Amazon Logistics Portal (DSP Portal).

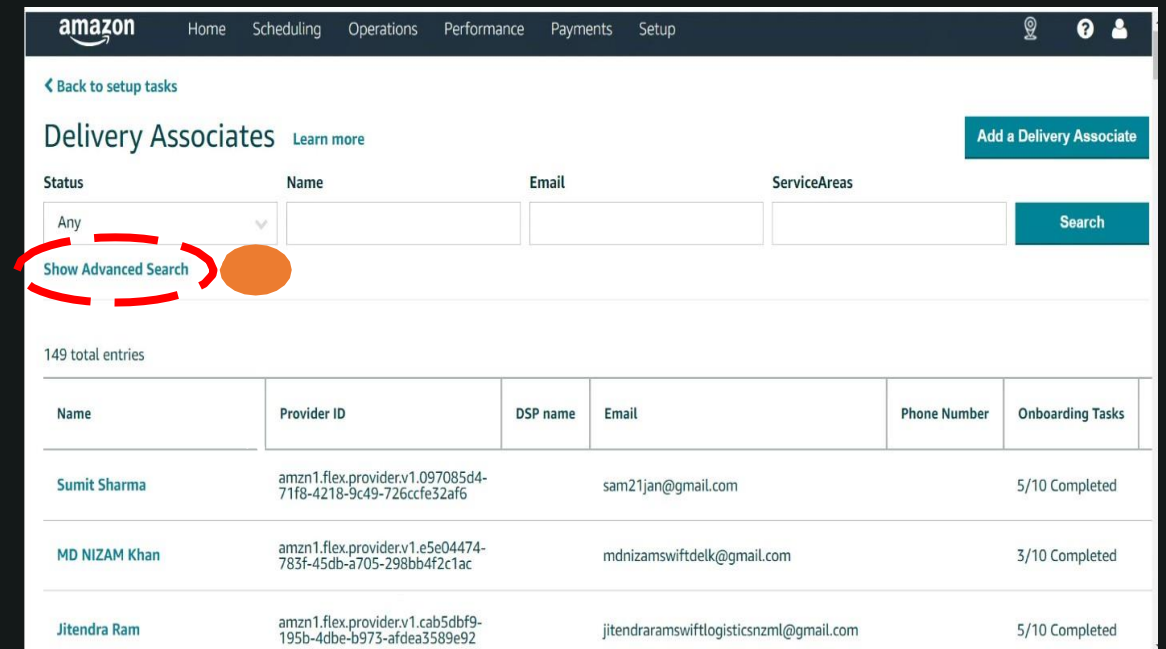

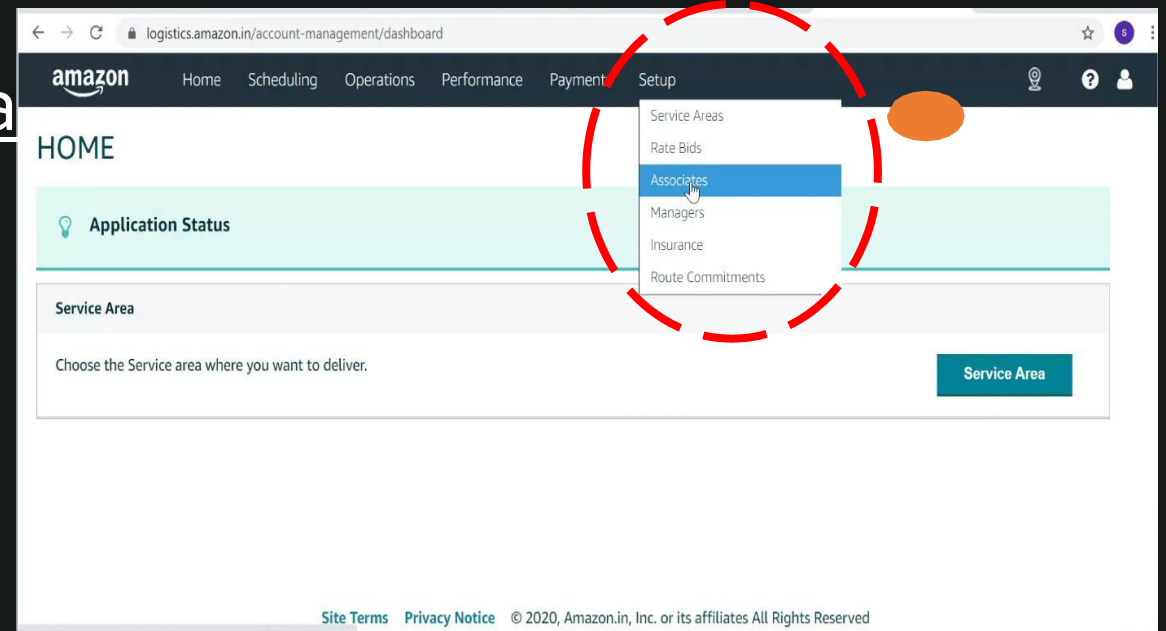

1. Download DA inapp onboarding report from “Supplementary Performance reports” section in DSP Portal www.logistics.amazon.in)
2. Review the different columns and information mentioned in the excel file to review DAs onboarding status at station level, understand the onboarding stage in which they are stuck, and next steps to move forward

Supplementary Performance Reports	
Week 30, 2021	< >
Showing reports for Week 30, 2021	
Search here...	
Report	Date of Creation
EDSP Minimum Guarantee Model- August Details.zip	2021-07-27 21:19:18
DA inapp onboarding.csv	2021-07-30 09:24:42
EDSP Daily Shipment count.zip	2021-07-30 07:01:26

B. Bulk tracking of onboarding status via Setup -> Associates section in Amazon Logistics Portal (DSP Portal).

1. Log into Amazon Logistics Portal (www.logistics.amazon.in)
2. Click on **Setup>>Associates** in Amazon Logistic Portal.
3. Click on “show Advanced Search”

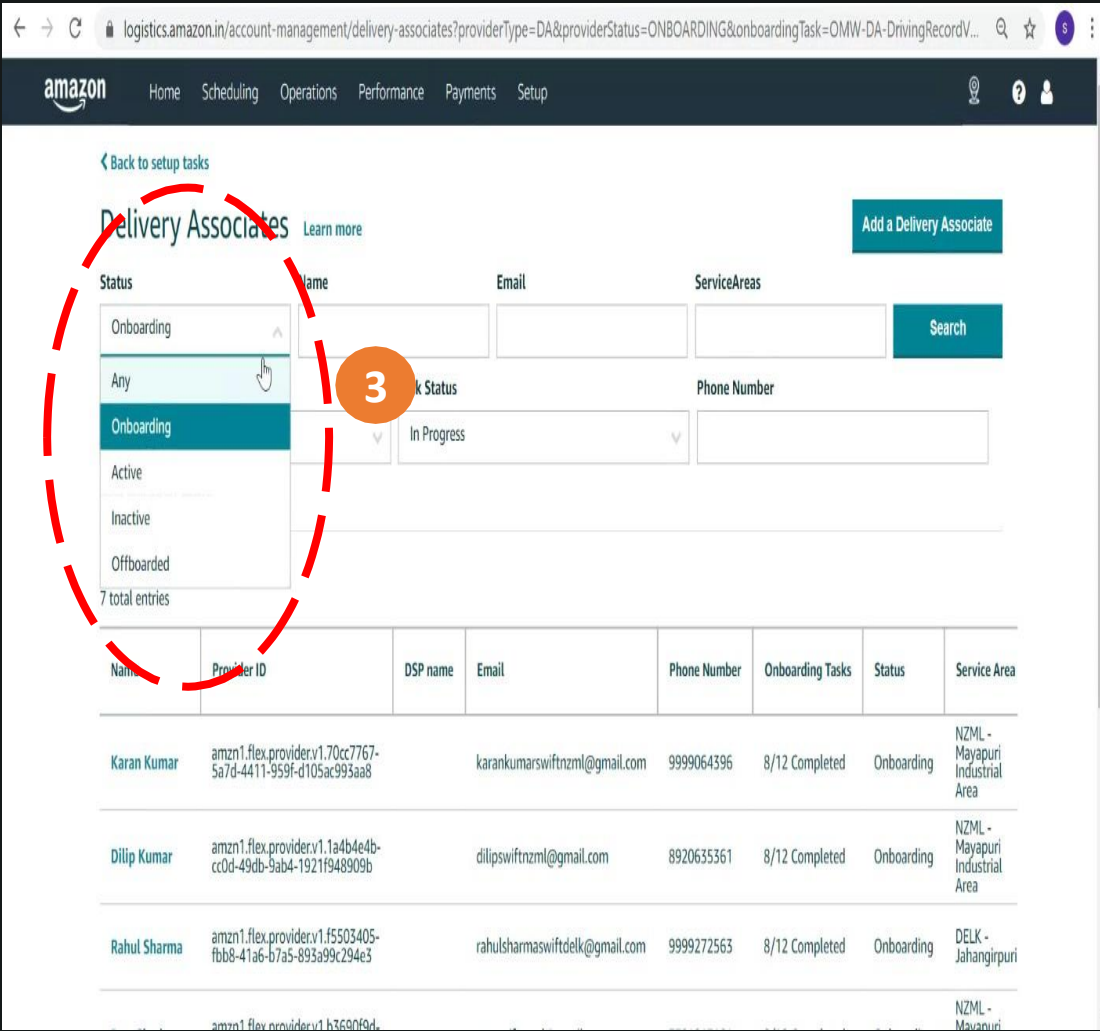

4. Select the status from drop-down of Status column.

A. Onboarding: It will show list of DAs who have not been successfully on boarded until now, and are in Onboarding funnel.

B. Active: It will show list of DAs who have successfully completed onboarding, and are in ACTIVE status

C. Inactive: It will show list of DAs who are INACTIVE status

D. Offboarded: It will show list of DAs who are off boarded either by partner or Amazon

5. Select the option from drop-down of Onboarding Task column (1 of 4)

a) **Delivery Attributes:** For status of Step-2 (Edit Associate Settings) of onboarding task, in which partner enters service area, service type, and supervisor alias of DA.

b) **Provider Invite Acceptance:** For status of Step-3 of onboarding task, in which DA accepts onboarding invitation by DSP.

How can DSPs off board or inactivate DAs in
Amazon Logistics Portal

Steps performed by DSP Partner

In the new DSP UI, partner can change the operational status of DA from ACTIVE to Inactive or ACTIVE to Off board. The steps to inactivate or off board an associate are:

1. Click on DA Name
2. Click on “Change Status” button

3. Select the Status from drop down menu.

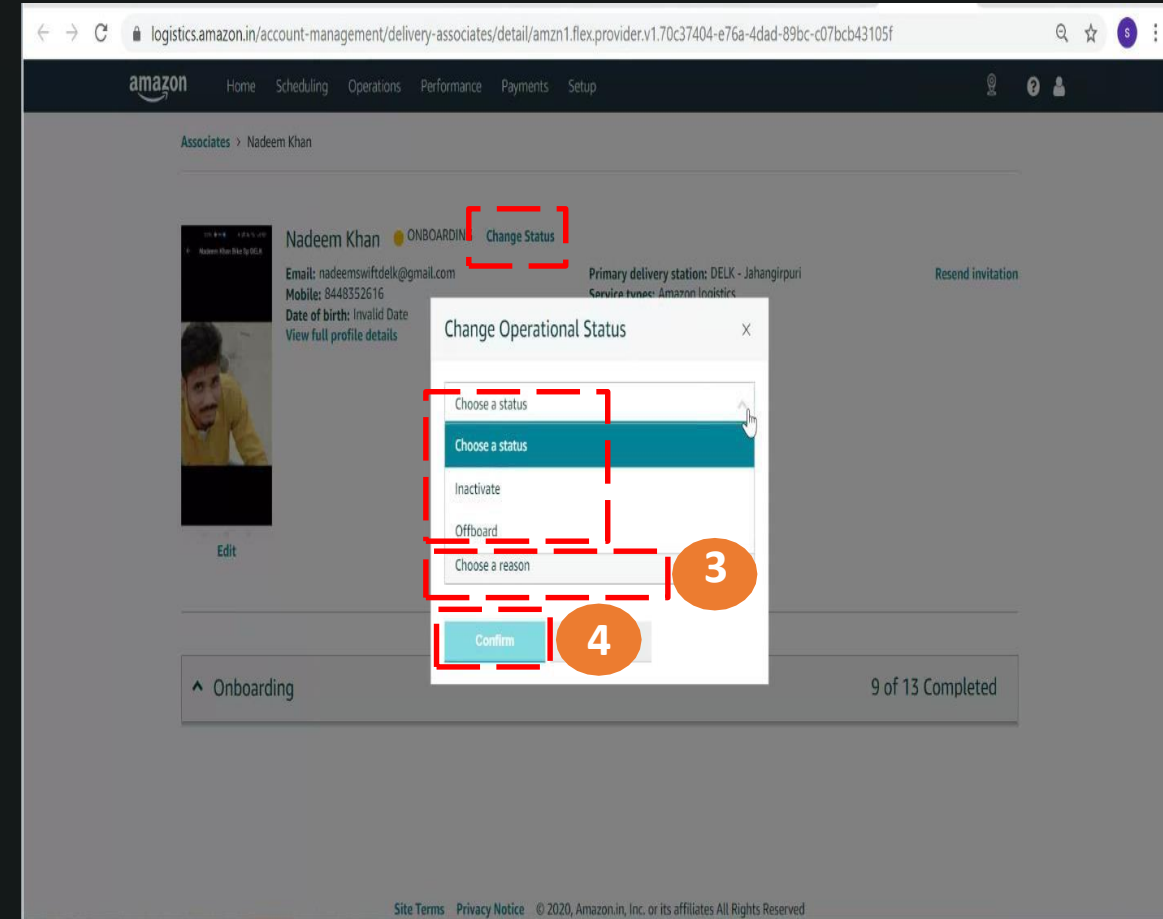

a) "Inactivate" means making DA inactive.

b) "Offboard" means off boarding DA from all Amazon system.

Please note that once DA is off boarded, DA needs to go through entire onboarding process in case of re-onboarding

4. Select reason from "Choose a reason" drop down me.

5. Click on Confirm

End of Module

Thank you
